## *about us*

Our mission at Inclusive Montessori is to implement the philosophy, practice, and curriculum of Dr. Maria Montessori. We provide an instructional, individualized Montessori program that will enable all students to reach their highest level of academic success. We respect the right and need of each individual child, to stimulate the passion to embrace all of life with respect and love. We develop the skills necessary for active and intelligent exploration and a lifelong love of learning.

The hands on the world represent growth, transformation, and a positive imprint on the world itself. This is a representation and reminder that we are here to help your children offer a positive imprint onto the world and their life journey, while learning in a free environment.

## *montessori curriculum*

**Practical Life:** These exercises include self-care, care of indoor and outdoor environments, grace and courtesy, and control of movement.

**Sensorial:** Sensorial materials teach children to classify and sort sensory impressions relating to color, size, touch, smell, etc.

**Cultural:** Art, music, nature study, history, science, and geography are all integrated into the primary curriculum.

**Science:** Children observe, gather information and solve problems together. Astronomy geology, chemistry, zoology are introduced.
